

Jovan Edric Sumarto

Tangerang Selatan, Banten • 0823-1093-4263 • jovan13sumarto@gmail.com

Education

BINUS University, Indonesia

Bachelor's Degree in Computer Science

Expected Graduation: 2028

Sept 2024 - Present

Relevant Coursework: Data Structures, Artificial Intelligence, Machine Learning, Computer Vision, Database Systems, Object-Oriented Programming (Java), C/C++ Programming, UI/UX Design

Projects & Research

Binary Classification of AI-Generated vs. Real Images

Feb 2026 - Sep 2026

Dual-Stream Hybrid Feature Extraction Research

AI Researcher & Developer

- Explored and benchmarked dual-stream hybrid feature extraction methods using MobileNetV2 and EfficientNet-B0 architectures on the CIFAKE dataset.
- Implemented static feature concatenation and Linear Support Vector Machine (SVM) models for accurate AI vs. real image binary classification.
- Evaluated user interaction flows and model performance metrics to ensure effective translation from theoretical AI concepts into practical implementations.

Experience

Live Visual & Motion Designer

Jan 2024 - Present

Event Production & Visual Mapping

Tangerang, Indonesia

- Analyzed song nuances, tempos, and audio frequencies (FFT) to construct real-time audio-reactive visual mappings in Resolume Arena.
- Managed fluid visual transitions and timing across live events, applying core motion pacing principles to design responsive UI/UX micro-interactions.

Media Up Station

Sep 2025 - Oct 2025

E-Sports Journalist Intern

Jakarta, Indonesia

- Conducted live interviews with professional Mobile Legends teams and coaches during high-stakes MPL events to provide real-time coverage.
- Prepared structured interview flows, extracting high-value insights to compile newsworthy digital content and esports stories.

BINUS University Welcoming Party

Aug 2025 - Sep 2025

Master of Ceremony (MC) & Event Coordinator

Tangerang, Indonesia

- Hosted main stage events for 90-100 attendees, driving audience engagement and maintaining dynamic event pacing.
- Coordinated backend logistics, venue bookings, technical providers, and staff operations to execute seamless event schedules.

Comic Frontier (Comifuro 17 & 18)

Dec 2023 - May 2024

Sales Assistant & Welfare Coordinator

BSD City, Indonesia

- Managed booth operations and organized product displays in high-traffic convention environments, boosting merchandise sales.

Technical Skills & Interests

Languages & Frameworks: Python, Java, C/C++, MySQL, HTML/CSS

Tools & Software: Figma, Canva, Resolume Arena, VS Code, Eclipse, Google Colab

Design & Concepts: UI/UX Wireframing & Prototyping, Motion Graphics, Audio-Reactive Visual Mapping, Micro-interactions, User Research
